

Mysticism - A meeting point of science and religion

Dr T. D. Singh

Contents:

Mysticism: what is it?

1) *Mysticism in science*

The mysterious quantum world
Imaginary numbers
Mystery behind physical constants
Mystery in biological systems
Mystery of time
Mystery behind scientific discoveries

2) *Mysticism in religion*

Divine spark
Spiritual senses of the soul
Purification
The guide of the mystic
Unusual feelings
The stages of a mystic

Darwinism and its limitations

Mysticism: a meeting point of East-West dialogue

Spiriton – particle of life beyond genetic code

Some of the topics covered:

- What are the various mysteries in physics, mathematics, life-sciences or cosmology?
- How does a scientist or a mystic encounter them?
- What paths does he take to move ahead?
- What guides his journey and what is the future of such a seeker?
- What is an experience beyond sense perception?
- How are scientists able to connect to their intuition, receive brilliant inspiration and achieve discovery?
- A glimpse into the marvels of life.

Dr. T. D. Singh (His Holiness Bhaktisvarupa Damodara Swami) has a unique background.

He is a scientist with a Ph.D. in Physical Organic Chemistry from the University of California, Irvine, USA, as well as a spiritualist in the Bhakti-Vedanta tradition of India. He has authored and edited over thirty books on science and religion, including his famous dialogue with Prof. Roger Penrose: Science, Spirituality and the Nature of Reality. He is the Founder Director of the Bhaktivedanta Institute and has been one of the pioneers in advancing the dialogue between science and religion over the past three decades.

"I enjoyed Dr Singh's spiritual views based on traditional wisdom as well as his open-minded readiness to co-integrate on common grounds our knowledge and beliefs in order to improve our humble understanding of the great complexity of life."

Prof. **Werner Arber**, Nobel Laureate in Physiology and Medicine, Switzerland

MYSTICISM

A MEETING POINT OF
SCIENCE AND RELIGION

*Exploring mysteries in our universe from
Imaginary numbers to ATP molecules.*

Dr. T. D. Singh
(His Holiness Bhaktisvarupa Damodara Swami)

ISBN: 81-89635-22-0

Publication: 2014

Price: US\$ 5

Binding: Paperback

Extent: 112 pages

Format: 215 x 135 mm

Territory: World

Subjects: Science, Mathematics,
Biology, Physics, Cosmology,
Science and Spirituality, Vedanta,
Veda, Hinduism

Readership:

Science and Technology Students,
Teachers, Faculty members,
Teach yourself Science readers,
Teach yourself Vedanta readers,
Spiritual seekers
